Let's do it again...NASBS 2016 Member Refer a Member Program

HELP NASBS CONTINUE TO GROW!

The North American Skull Base Society challenges all members to encourage your colleagues, friends, associates, and contemporaries who are involved in the care of patients with skull base disorders including radiologists, radiation and medical oncologists, ophthalmologists, plastic and reconstructive surgeons to join NASBS for 2016. You are our best source for involving new members. You have experienced the value of NASBS membership, and your endorsement of the society is the most effective tool for recruitment.

EVERYONE WINS

When new members join NASBS everyone wins! New members receive access to all the benefits of membership including networking, professional development, online member directory, and much more. In addition to helping to advance your colleague's career, every member who successfully refers a new member will be listed in a special article of recognition to be published in the NASBS Newsletter, on the NASBS website and highlighted in the Annual Meeting Program. More importantly, each time you refer a new member, your name will be entered into the grand prize drawing to receive free registration at the **26th Annual NASBS Meeting, February 12-14, 2016 in Scottsdale, Arizona.**

HOW TO PARTICIPATE

Direct your colleagues to apply online at www.nasbs.org/membership/join-nasbs. New recruits must list your name on their NASBS membership application when joining. To be eligible for the grand prize, new member applications must be received by **January 15, 2016**. Our staff will notify NASBS members each time your name is listed on a new member application. The winner will be announced **January 31, 2016**.

Only active NASBS members are eligible to participate in the Member Refer a Member Program. Please contact the Member Services department at membership@nasbs.org or call (310) 437-0555, ext.126 if you have any questions.

Good luck!
