# 32<sup>nd</sup> Annual Meeting

Pre-Meeting Dissection Course: February 15-16, 2023

The **North American Skull Base Society (NASBS)** is committed to the dissemination of information about the anatomy, physiology, pathology, and clinical management of diseases involving the skull base. We also support, coordinate and enhance efforts to generate basic scientific information useful to specialists in the care of diseases of the skull base and further distribution of this information among the various scientific disciplines caring for patients with skull base diseases. We encourage the application of these advances to stimulate further interest in skull base pathology and to re-educate our members in the most recent advances.

## ATTENDEE PROFILE

Physicians within the North American continent are heavily represented; however, international members representing experts in skull base lesions from around the world are welcome to attend. Attendees will include neurosurgeons, otolaryngologists, head & neck surgeons, plastic surgeons as well as radiation oncologists, ophthalmologists, radiologists, pathologists, audiologists, speech pathologists, PMR doctors and others that both specialize in rehabilitation and/or have an interest in diseases involving the cranial base.
